

CNC WIRE CUTTING MACHINE GT-7755

NC Control UNIT OF GT77 Series CNC Wire EDM

Our company's GT77 series CNC EDM control cabinets are divided into two categories: single-board computers and integrated control. The integrated control cabinets include HF, HL, PM-K and other control systems for selection. They are easy to program and operate, and have powerful functions. There are also two types of desktop and cabinet options.

Technical Specification details :

MACHINE MODEL	UNIT	GT-7755
Molybdenum		Molybdenum Wire Technology
Worktable travel	mm	550 x 650
Worktable size (L x W)	mm	596 x 880
Maximum cutting thickness	mm	500
Taper	°	6°
Servo motor		X and Y axis
U and V Travel	mm	60 x 60
Positioning accuracy	mm	0.01
Wire diameter	mm	φ 0.18
Maximum Wire Feedrate	mm/min	320
Power sources		3 Phase 50/60 Hz (9 - 13 Kva)
Maximum workpiece weight	kg	800
Net weight of the main machine	kg	2500
Dimensions	mm	2070 x 1170 x 1790
